PROFESSIONAL SUMMARY

Computer Science graduate with hands-on experience building and deploying full-stack web applications using React, Node.js, Express and MySQL. Developed a job application tracking platform with JWT authentication, user-specific data access, REST APIs, and relational database integration. Familiar with API testing using Postman, Git-based workflows, and core computer science fundamentals.

TRAINING EXPERIENCE

WEB DEVELOPER TRAINEE | Endava, Bangalore **Jan 2026 – May 2026**

- Developed responsive UI components using React, JavaScript, HTML5, and CSS as part of web development training.
- Integrated frontend components with REST APIs and handled loading, error, and empty states.
- Debugged UI and integration issues and validated application workflows using Git-based development practices.
- Practised collaborative development, code reviews, and Agile workflows.

PROJECTS

JOB APPLICATION TRACKER | Full-Stack Project

Tech: *React.js, Vite, JavaScript, Node.js, Express.js, MySQL, JWT, bcryptjs*

- Built and deployed a full-stack job tracking application with a React frontend, Express REST API, and MySQL database.
- Implemented JWT-based authentication, bcrypt password hashing and protected API routes and user-scoped data access.
- Developed CRUD workflows for companies, job applications and interviews, with dashboard statistics, application status filtering, search, sorting and pagination.
- Implemented interview calendar views, CSV export, profile management, and secure password reset workflows.
- Configured production deployment across Vercel, Render, and Aiven MySQL; tested API workflows using Postman.
- **Live Demo:** https://job-tracker-eta-six-12.vercel.app
- GitHub: job-tracker

MINI-COMPILER IN C++

- Built a compiler front-end in C++ to tokenize source code and validate expression syntax.
- Implemented a lexical analysis to recognise keywords and report errors for malformed input.
- Tested the compiler using example programs covering valid expressions and syntax errors.
- GitHub: mini-compiler

PROBLEM SOLVING

LeetCode: chiru_k | **CodeChef :** Chiru1718 **| Codeforces:** Chiranjeevi_k

TECHNICAL SKILLS

Languages: JavaScript, C++, SQL
Frontend: React.js, HTML5, CSS3, Vite
Backend: Node.js, Express.js, REST APIs, JWT authentication
Database: MySQL, SQL Queries, Relational Database Design
Tools: Git, GitHub, Postman
Core CS: Data Structures and Algorithms, OOP, DBMS

EDUCATION

B.Tech in Computer Science and Engineering | University College of Engineering Kakinada (JNTUK) | GPA: 7.85 **2022 – 2026**

Intermediate | Sri Saraswathi Jr College | 98% **2020 – 2022**
